Paper Foodservice Packaging Market

According to recent market research, US demand for paper foodservice packaging is projected to increase steadily, with a projected growth rate of around 3.3% per year, reaching a market value of approximately \$16 billion by 2027, driven primarily by growing consumer pressure for sustainable and recyclable packaging options.

Key points about the US paper foodservice packaging market:

Sustainability Trend

The major driving force behind this increasing demand is the growing consumer preference for environmentally friendly packaging, leading to a shift towards paper-based alternatives over plastic.

Takeout and Delivery Impact

The rise in takeout and food delivery services further fuels the need for convenient, disposable paper packaging.

Market Segments

Paper cups, food containers, trays, and bags are key segments within the paper foodservice packaging market.

Industry Players

Major companies involved in paper foodservice packaging include International Paper, WestRock, and Sonoco.

Pizza Packaging Market

The pizza box market in the United States is growing and is expected to continue to grow in the coming years. In 2023, the pizza box market was valued at \$2.65 billion, and is expected to reach \$3.78 billion by 2030.

Factors Contributing to Growth

Pizza Delivery

The rise of pizza delivery culture has contributed to the growth of the pizza box market.

Fast Food Consumption

The increasing consumption of fast-food items has fueled the growth of the pizza box market.

Sustainable Products

The growing demand for sustainable products will lead to the surging growth of the pizza box market.

Innovation

Innovation in the different tastes and flavors of pizza is increasing the demand for pizza globally.

By Material Type

The Corrugated Paper board segment is expected to grow at the highest CAGR over the forecast period. These types of boxes are lightweight for easy delivery and at the same time sturdy enough to sustain rough handling during transportation. They are also available in different colors such as brown pizza boxes, white pizza boxes. The Pizza Box is divided into two segments: corrugated paperboard and clay-coated cardboard. Premium pizza restaurants use clay-coated cardboard for pizza boxes because it has a flat surface that allows for easy printing.
